

PROBLEME ILUSTRATE

REZOLVĂ PROBLEMELE DUPĂ IMAGINI, SCRIE EXERCITIUL!

An illustration for a math problem featuring butterflies. On the left, there are 3 orange and black monarch butterflies. In the middle, there are 2 more of the same butterflies. On the right, there are 6 butterflies in total. Below the butterflies are three empty white boxes for writing numbers, separated by a plus sign and an equals sign.

$$\square + \square = \square$$

An illustration for a math problem featuring fish. On the left, there are 3 green fish with blue stripes. In the middle, there are 2 more of the same fish. On the right, there are 4 fish in total. Below the fish are three empty white boxes for writing numbers, separated by a plus sign and an equals sign.

$$\square + \square = \square$$
